PROFILE

Controls and audit leader who builds the tools control teams use. At Citi Internal Audit he took an AI review assistant from user need to production: wrote the requirements and the **AI governance framework** it ran under, built it in Python and LangChain, and drove adoption (~35% faster review). Prototypes with **Claude Code**, running his own multi-agent workflows from written specs. Knows the user: a first-line Risk Control Manager at JPMorgan Chase who managed his controls in **CORE**, an internal-audit Vice President across 15+ businesses at Citi, and a former bank examiner. Registered Scrum Master; FIU doctoral research on **how AI-assisted review changes professional judgment**.

SELECTED RESULTS

~35%	Faster review from an AI assistant he took from requirements and prototype to production and adoption	*Citi Internal Audit*
15+	Business units under risk-based, thematic, change and consent-order closure audits; team of 15 auditors across New York, India and Canada	*Citi Internal Audit*
500+	Data sources brought under governed master data with lineage and quality controls; FR 2900 and TIC at 99.8% accuracy	*Citi*
~40%	Less manual review after automating first-line reconciliations	*JPMorgan Chase*

EXPERIENCE

Vice President, Audit Manager — Citi

Jul 2021 – Apr 2026

Internal Audit — Cross-Enterprise Program & Change Management | New York, NY

- Led risk-based audits across **15+ business units**, including programme-management, thematic and change audits, and co-led **consent-order closure** audits, covering governance, controls, data integrity, technology and regulatory reporting; closure evidence **accepted by external regulators**; led a team of **15 auditors** across New York, India and Canada; reported to the Board Audit Committee.
- **Product, AI-first:** turned auditors' review pain points into requirements, prototyped, then built and shipped a retrieval-augmented **review assistant** in Python and LangChain with explainability, prompt-injection guardrails and a person reviewing every output; drove adoption; ~35% less review cycle time.
- Wrote the **AI governance framework** for audit's own AI use against NIST AI RMF: use-case intake, risk tiering, control library, human-in-the-loop requirements and post-deployment monitoring; presented progress to senior management.

Risk Control Manager, Treasury & CIO — JPMorgan Chase

Mar 2019 – Jun 2021

First-Line Controls and Model Controls | Jersey City, NJ

- Owned first-line controls over Treasury and CIO **capital and liquidity** activities; led CCAR forecast validation and model challenge over a **$2.6T** balance sheet; automated reconciliations cut manual review ~40%.
- Worked in **CORE**, the firm's control-management application, to document and maintain Treasury and CIO controls: the Control Manager's view of the product.
- Designed and implemented **model controls** for qualitative models and the attestation of quantitative models, including oversight of model overlays; worked through model testing to confirm the controls operated effectively.

AI-ASSISTED DEVELOPMENT

Uses **Claude Code** to prototype and run his own spec-driven, multi-agent workflows on GitHub: written specs and reusable skills, two agents with separate scopes coordinating through a shared hand-off file, automated document builds and checks (github.com/MalikAI-786).

EARLIER CAREER

Program Manager, CIB Resolution & Recovery Planning — JPMorgan Chase (2015–2017) • Capital Controller, Basel Measurement & Analytics — JPMorgan Chase (2017–2019) • Assistant Vice President, Global Legal Entity Management — Citi, Tampa, FL (2012–2015) • Bank Examiner, Bureau of Bank Regulation — Florida Office of Financial Regulation, West Palm Beach, FL (2011–2012) • Senior Business Analyst, Retail Credit Risk — Royal Bank of Scotland, Dubai (2008–2009)
