EDUCATION

Doctor of Business Administration (DBA), Florida International University Year 2, expected 2028
Chapman Graduate School of Business | GPA 3.81 | Lockstep executive doctoral cohort

MBA, Financial Mathematics — Florida International University 2011
GPA 3.8

B.Sc., Banking & Finance — London School of Economics 2005

FinTech Boot Camp — Columbia Engineering 2021

DOCTORAL RESEARCH

Dissertation (in development): *Anchoring Bias in LLM-Assisted Audit Judgment*. A **mixed-methods** programme asking how professional judgment shifts when a large language model supplies a confident starting point — and what an auditor must test to demonstrate independent judgment was exercised.

- **Quantitative arm.** A designed experiment on anchoring in expert judgment, approved under **IRB-25-0462** and analysed in SPSS. Recruitment of a rare professional population — practising auditors — proved the binding methodological constraint, and the recruitment design is itself documented as a contribution.
- **Qualitative arm** (in development, 2026–). Research question and proposal developed in *GEB 7911: Qualitative Research Methods in Business*; interview-based design examining how auditors describe and justify reliance on AI-generated work.
- **Prior study:** completed quantitative research sequence including research design, measurement, and inferential analysis; second-year coursework is qualitative and mixed-methods design.

TEACHING INTERESTS — MAPPED TO RUTGERS BUSINESS SCHOOL UNITS

RBS ACADEMIC UNIT	COURSES I AM PREPARED TO TEACH
Accounting and Information Systems	Auditing • Internal Auditing • IT Audit and Controls • Accounting Information Systems • Fraud Examination • Governance, Risk and Compliance
Finance and Economics	Commercial Bank Management • Financial Regulation and Supervision • Risk Management • Capital Markets and Capital Adequacy (Basel III, CCAR) • Money and Banking
Management Science and Information Systems • Information Technology and Analytics	Business Analytics • Data Governance and Data Quality • AI Governance and Responsible AI • Introduction to Python for Business • Decision Analysis
Management and Global Business	Business Ethics • Corporate Governance • Judgment and Decision-Making in Professional Practice

Availability: Fall 2026, and available to be considered for **Spring 2027 and Fall 2027** as needs arise. Comfortable in traditional, hybrid and fully online formats; Newark, New Brunswick or Jersey City sections. I live in Newark.

TEACHING & INSTRUCTION

Graduate Assistant, Financial Literacy Lab — Florida International University 2011

Appointed during the MBA. Delivered financial-literacy instruction to undergraduates one-to-one and in small groups, and ran the lab's day-to-day operations — scheduling, materials, and student intake. First sustained experience explaining quantitative material to students who did not arrive believing they could learn it.

Tutor, Student-Athlete Academic Center (SAAC) — Florida International University 2010 – 2011

Tutored student-athletes in finance, economics and quantitative coursework around demanding training and competition schedules — teaching to a fixed deadline, with attendance and eligibility riding on the outcome.

Invited talk: artificial intelligence in professional judgment Florida International University

Guest session delivered to the graduate course of **Prof. Sumit Kundu**, on how AI assistance reshapes expert decision-making and what that means for business practice and research design.

Doctoral seminar presentation — GEB 7365, International Business Theory and Practice Aug 2026

Florida International University | Prof. William Newburry

Led a session synthesising four papers on measurement in internationalisation research, arguing that a long run of contradictory findings in that literature reflects a methods problem rather than a theory problem. Presented to faculty and doctoral cohort.

Mentor to 8+ internal auditors — Citi Internal Audit 2021 – 2026
Structured instruction for practising professionals in analytics-led audit testing, responsible AI adoption, prompt engineering, and ethical decision-making in human–AI workflows. Designed the materials as well as delivered them. Recognised with Citi's *Delivers with Pride* award.

Practitioner instruction — enterprise AI enablement, Citi 2024 – 2026
Designed and delivered the enablement that put a retrieval-augmented audit tool into the hands of non-technical auditors: training built around their actual workflow, adoption measured.

SERVICE & LEADERSHIP

Vice President, Doctoral Student Association — Florida International University current
Elected officer representing doctoral candidates; cohort advocacy, programming, and liaison with faculty leadership.

Student Managed Investment Fund — real estate allocation, Florida International University
Member of the student-run fund, covering the real-estate allocation: research, valuation and recommendation to the investment committee.

PROFESSIONAL EXPERIENCE

Vice President, Audit Manager — Citi Jul 2021 – Apr 2026
Internal Audit, Cross-Enterprise Program & Change Management | New York, NY
Led risk-based audits across **15+ business units**. Authored the firm's AI control framework against NIST AI RMF and SR 11-7, defined the AI tooling roadmap for Internal Audit, and built and shipped a retrieval-augmented workpaper assistant in Python and LangChain (~35% faster review). Reported to executive management and the Board Audit Committee.

Risk Control Manager, Treasury & CIO — JPMorgan Chase Mar 2019 – Jun 2021
First-Line Capital Controls & Resolution and Recovery Planning | Jersey City, NJ
CCAR forecast validation and model challenge over a **\$2.6T** balance sheet under SR 15-18; Resolution & Recovery Planning across **50+ stakeholders** into Federal Reserve and FDIC submissions.

Capital Controller, Basel Measurement & Analytics — JPMorgan Chase 2015 – Feb 2019
Basel III RWA and capital adequacy reporting across a **\$50B** book; identified **\$180M** in capital optimisation.

Assistant Vice President, Global Legal Entity Management — Citi 2012 – 2015
Bank Examiner, Bureau of Bank Regulation — Florida Office of Financial Regulation 2011 – 2012
CAMELS safety-and-soundness examinations of state and national banks alongside federal banking regulators — the supervisory perspective, taught from the inside.

RESEARCH METHODS, TECHNICAL & CERTIFICATIONS

Methods: experimental design • survey measurement • inferential statistics in SPSS • qualitative interview design and coding (in development) • human-subjects research ethics (IRB) | **Technical:** Python • SQL • SAS • LangChain • retrieval-augmented generation • scikit-learn • SHAP / LIME • Alteryx • Tableau • Power BI • Excel/VBA
Frameworks: Global Internal Audit Standards • COSO • Three Lines of Defense • SR 26-2 model risk (2026, superseding SR 11-7) • NIST AI RMF • EU AI Act • ISO/IEC 42001 | **Certifications:** FDIC Bank Examiner I • Registered Scrum Master • GCP Social/Behavioral Human Subjects Research; *in progress* CIA Part 1, IAPP AIGP
Practice: Founder, *Audit the Algorithm* (auditingai.github.io, 2024–) — AI governance advisory for regulated financial services.
