

YASIR A. MALIK

Responsible AI & AI Governance Executive | Governance Built into the Platform | Financial Services & Former Bank Examiner
Newark, NJ (New York metro) • YasirAMalik@gmail.com • +1 (786) 704-8536 • linkedin.com/in/yasiramalik • github.com/MalikAI-786

PROFILE

Responsible AI leader who makes the responsible path the easiest path: turns governance, risk and compliance requirements into **reusable capabilities, automated guardrails and governance workflows** that teams adopt because they are faster than the alternative. At Citi, authored the enterprise **Responsible AI governance framework** against NIST AI RMF and federal model risk guidance, defined the AI tooling roadmap it governed, and then **built and shipped** the production LLM retrieval system on it (~35% faster review). Grounded in financial services from both sides of the table: bank examiner, then first-line controls and Internal Audit at JPMorgan Chase and Citi. Reads the regulation early: **SR 26-2** (April 2026) replaced SR 11-7 and places **generative and agentic AI outside its scope**, so the guardrails a platform ships are now the control that exists. Doctoral research at FIU measures how expert judgment changes when an AI answers first.

SELECTED RESULTS

~35%	Faster review cycle from a retrieval-augmented LLM assistant he specified, built and put into production, with guardrails and explainability built in	Citi
15+	Business units under AI and consent-order assurance, with closure evidence accepted by regulators; Board Audit Committee reporting	Citi
\$2.6T	Balance sheet under CCAR forecast validation and quantitative model challenge (SR 15-18)	JPMorgan Chase

EXPERIENCE

Vice President, Audit Manager — Citi

Jul 2021 – Apr 2026

Internal Audit, Cross-Enterprise Program & Change Management | New York, NY

- **Defined the Responsible AI strategy and governance framework** for AI in Internal Audit — use-case intake and risk tiering by criticality, a control library mapped to NIST AI RMF, explainability and human-in-the-loop requirements, and post-deployment monitoring KPIs — embedding governance across the **AI lifecycle**.
- **Built and shipped the RAG Workpaper Quality Assistant** (Python, LangChain, vector search) with **technical guardrails** — prompt-injection defences, SHAP/LIME explainability, evaluation and red-teaming scripts — so the tool was auditable by design; iterated with its users as a product, not a review gate.
- Ran independent assurance over enterprise **LLM and GenAI adoption** — model risk, bias and fairness, hallucination, adversarial robustness, **third-party and foundation-model risk** — working across Technology, Risk and Compliance; reported **governance effectiveness** to executive stakeholders.

Risk Control Manager, Treasury & CIO — JPMorgan Chase

Mar 2019 – Jun 2021

First-Line Capital Controls & Resolution and Recovery Planning | Jersey City, NJ

- Owned the first-line control framework for Treasury and CIO capital activities; led **CCAR** forecast validation and model challenge over a **\$2.6T** balance sheet
- Drove alignment across a highly matrixed organisation — **50+ stakeholders** in five functions, none reporting to him — into Resolution & Recovery Planning submissions to the Federal Reserve and FDIC against statutory deadlines.

Capital Controller, Basel Measurement & Analytics — JPMorgan Chase

Sep 2017 – Feb 2019

Brooklyn, NY • preceded by Program Manager, CIB Resolution & Recovery Planning (2015–2017)

Owned Basel III RWA and capital adequacy reporting across a **\$50B** book; RWA treatment analysis surfaced **\$180M** in capital optimisation for CFO decision support.

Assistant Vice President, Global Legal Entity Management — Citi

2012 – 2015

Tampa, FL

Built a shared data capability: consolidated **500+ legal-entity data sources** into governed master data with ownership, lineage and data-quality controls, automating **FR 2900** and **TIC** filings at **99.8%** accuracy.

Bank Examiner, Bureau of Bank Regulation — Florida Office of Financial Regulation

Apr 2011 – Mar 2012

Earlier: Senior Business Analyst, Retail Credit Risk — Royal Bank of Scotland, Dubai (2008–2009)

CAMELS safety-and-soundness examinations alongside federal banking regulators; workpapers supporting formal enforcement actions.

RESPONSIBLE AI CAPABILITIES

Governance: Responsible AI strategy, principles and usage policies • AI governance frameworks • AI lifecycle and model lifecycle management • use-case intake and risk tiering • governance metrics and reporting • NIST AI RMF • ISO/IEC 42001 • EU AI Act • SR 26-2 / SR 11-7 model risk • Three Lines of Defense

Platform & technical: LLMs, foundation models and agentic AI • RAG and vector databases • LangChain / LangGraph • technical guardrails and policy enforcement • AI information security and privacy controls (prompt injection, data exposure) • model evaluation and red-teaming • post-deployment monitoring (AI observability) • explainability (SHAP / LIME) • Python • SQL • GitHub Actions

EDUCATION & CREDENTIALS

Doctor of Business Administration, Florida International University — in progress; qualifying examination passed Jul 2026 (IRB-25-0462). Dissertation in development: *Anchoring Bias in LLM-Assisted Audit Judgment*.

MBA, Financial Mathematics, Florida International University — 2011 • **B.Sc., Banking & Finance, London School of Economics** — 2005 • **Columbia Engineering FinTech Boot Camp** — 2021

Certifications: FDIC Bank Examiner I • Registered Scrum Master • GCP Social/Behavioral Human Research; *in progress* IAPP AIGP and CIA Part 1.
