

YASIR A. MALIK

Internal Controls • Enterprise Risk • Internal Audit • Responsible AI & Model Risk

Newark, NJ | YasirAMalik@gmail.com | +1 (305) 799-2443 | me/yasiramalik | github.com/AuditingAI

Audit and AI governance executive with 15+ years at Citi, JPMorgan, and U.S. regulators (OCC, Fed, FDIC), delivering enterprise risk oversight, CCAR/RRP controls, and consent order remediation. Pioneered AI-driven audit automation (35% cycle reduction), authored SR 11-7 and NIST AI RMF governance frameworks, and validated LLM outputs for board-level reporting. DBA candidate (FIU, 3.87 GPA) researching cognitive bias in LLMs, with direct application to AI model validation, fairness, and regulatory compliance. Expert in bias mitigation, human-in-the-loop and model governance.

PROFESSIONAL EXPERIENCE

VP — Audit Manager, Cross-Enterprise Program & Change Mgmt. | CITI | New York, NY

Jul 2021 – Apr 2026

- Spearheaded consent order audit execution strategy, leading issue validation and sustainable closure of high-priority regulatory findings across enterprise change programs; partnered with Risk, Finance, Technology, and Data leads to ensure alignment with OCC and Federal Reserve.
- Directed global audits of strategic transformation initiatives, assessing end-to-end program governance, third-party oversight, data integrity, and regulatory reporting effectiveness across 15+ business units, enhanced examiner readiness for supervisory review and regulatory challenge.
- Championed AI innovation within internal audit, designing and deploying a RAG-based Workpaper Quality Assistant that reduced audit cycle time by 35%, embedding NIST AI RMF, SR 11-7, XAI protocols, and human-in-the-loop safeguards into LLM-enabled audit frameworks.
- Mentored 8+ auditors on responsible AI adoption, prompt engineering and ethical decision-making in automated environments — Recognized with 'Delivers with Pride' award for AI-powered audit quality assurance innovation.

Risk Control Manager — Treasury & CIO (Capital, CCAR & RRP) | JPMORGAN CHASE | Jersey City, NJ

Mar 2019 – Jun 2021

- Redesigned the enterprise capital control framework across Treasury and CIO functions, shifting from manual, reactive controls to a centralized governance model with real-time feedback via CORE, improving control effectiveness and audit readiness.
- Led CCAR forecast validation and qualitative model challenge for a \$2.6T balance sheet, ensuring alignment with SR 15-18 and Federal Reserve expectations; implemented automated reconciliations reducing manual review time by 40%.
- Directed Resolution & Recovery Planning (RRP) across 50+ cross-functional stakeholders, delivering regulator-ready plans to the Federal Reserve and FDIC; strengthened governance, scenario analysis, and documentation standards.

Capital Controller — Basel Measurement & Analytics | JPMORGAN CHASE | Brooklyn, NY

Sep 2017 – Feb 2019

- Owned Basel III RWA calculations for a \$50B equity book of work (~\$35B in risk-weighted assets), decomposing trades to line-item level fixed assets, securities products, OTC derivatives, and embedded asset classes to ensure optimal risk weighting.
- Identified \$180M in capital optimization opportunities through granular portfolio analysis and risk-weight reassignment.
- Built analytical models to forecast capital impacts of strategic initiatives, supporting CFO decision-making on capital allocation.

Program Manager — CIB Resolution & Recovery Planning | JPMORGAN CHASE | New York, NY

Mar 2015 – Sep 2017

- Coordinated firm-wide resolution planning submissions across Legal, Treasury, and Operations, managing cross-functional dependencies on regulatory deliverables to Fed and FDIC.
- Played a key role in achieving the Fed's "not not-credible" rating on the resolution plan — a critical regulatory milestone requiring demonstration of the firm's resolvability under stress.

AVP — Global Legal Entity Management | CITI | Tampa, FL

Apr 2012 – Mar 2015

- Centralized 500+ legal entity data sources; automated FR2900/TIC filings with 99.8% accuracy.

Bank Examiner | OCC / Federal Reserve / FDIC / FL Office of Financial Regulation | West Palm Beach, FL

Apr 2011 – Mar 2012

- Conducted joint safety and soundness examinations across state and national banks using the CAMELS framework to evaluate capital adequacy, asset quality, management effectiveness, earnings performance, liquidity, and sensitivity to market risk.
- Authored regulatory workpapers and supported formal enforcement actions, remediation directives, and follow-up reviews for complex institutions. Completed examiner training at FDIC Corporate University (Bank Examiner I), with focus on risk and regulatory response.

Sr. Business Analyst — Retail Credit Risk | ROYAL BANK OF SCOTLAND | Dubai, UAE

Jan 2008 – Jun 2009

- Built dynamic credit risk MIS dashboards for a \$500M+ retail portfolio across the Middle East using Excel (VBA), SAS, and SQL.

EDUCATION, CREDENTIALS & DOCTORAL RESEARCH [EPISTEMIC RISK & AI GOVERNANCE]

Doctor of Business Administration | Florida International University | Expected 2027/28 | GPA: 3.87

Dissertation: Epistemic Drift & Sycophancy Risk in LLM-Assisted Audit Judgment

MBA (Financial Mathematics, 3.8 GPA) Florida International University (FIU) | 2011 — Pre-MBA (International Banking) FIU | 2007

B.Sc. Banking & Finance — London School of Economics (LSE) | 2005 — Columbia FinTech Boot Camp — Columbia University | 2021

AI Catalyst Program (6-Mo. Immersive) — GrowthSchool | 2024–25 — FDIC Bank Examiner I — Registered Scrum Master — GCP Human Research (AI Ethics)

TECHNICAL CAPABILITIES & HOBBIES

AI/ML & Agentic: Python, TensorFlow, PyTorch, Scikit-learn, LangChain, LangGraph, CrewAI, RAG/Agentic RAG, Vector DBs (Pinecone, ChromaDB), LLM Fine-tuning, Prompt Engineering, MCP, ReAct/Reflexion, HITL Design, Hugging Face, Google ADK — Use cases: Audit automation, AI assistants for risk validation for control testing.

AI Governance & Model Risk: NIST AI RMF, SR 11-7, ISO 42001/23894, EU AI Act, Colorado AI Act, Bias Detection & Mitigation, XAI (SHAP/LIME), Model Validation & Drift Monitoring, AI Red Teaming, Fairness Testing, Audit Trail Design — AI red teaming, audit trail integrity design, and LLM usage monitoring for regulated workflows.

Data & Cloud: SQL, SAP, Tableau, Alteryx, Power BI, Excel/VBA, AWS SageMaker, OpenAI API, Anthropic Claude API, Claude Code/ Codex & Gemini CLI

Interests: Calisthenics & HIIT training | AI Automations (n8n) | Competitive Chess | Cognitive Science, and Applied Epistemology | Mentoring & Guest Lecturing (FIU)

"The measure of intelligence is the ability to change." — Albert Einstein

And the measure of AI governance is knowing when that change becomes drift.
