

Audit the Algorithm

YASIR A. MALIK

Responsible AI Program Manager — Governance, Safety Standards & Enterprise Trust
Newark, NJ • YasirAMalik@gmail.com • +1 (786) 704-8536 • linkedin.com/in/yasiramalik • github.com/MalikAI-786

SUMMARY

Twenty years running risk and safety programs where a bad launch is a federal matter. Authored an AI governance framework referencing NIST AI RMF and SR 11-7 — model inventory, risk tiering, explainability, human-in-the-loop controls — and built the AI tooling it governs. Former OCC bank examiner; led consent-order remediation with evidence accepted by federal regulators, which is pre-launch safety review under the harshest possible audience. DBA candidate (FIU, expected 2028) researching over-reliance on AI-assisted tools — the human-factors half of Responsible AI.

PROFESSIONAL EXPERIENCE

Vice President, Audit Manager — Citi — Jul 2021 – Apr 2026

Cross-Enterprise Program & Change Management | New York, NY

- Authored the AI governance framework for the internal governance team: use-case inventory, risk tiering to prioritize higher-risk offerings, explainability requirements, and human-in-the-loop control design — referenced to NIST AI RMF and SR 11-7.
- Ran risk-based review across 15+ business units, setting the standard for what had to be true before a change shipped, and escalating where it was not.
- Drove consent-order remediation: issue-closure packages and evidence submitted to quality assurance and external regulators — safety claims that had to survive adversarial review.
- Built and shipped a prompt-engineered RAG document assistant for workpaper Q&A (~35% faster review), so the governance frameworks were written by someone who has also shipped the product being governed.
- Delivered executive and Board Audit Committee reporting; mentored 8+ staff on responsible AI adoption and bias awareness. Citi *Delivers with Pride* recognition.

Risk Control Manager, Treasury & CIO — JPMorgan Chase — Mar 2019 – Jun 2021

Capital Controls & Resolution and Recovery Planning | Jersey City, NJ

- Led the firm's Resolution & Recovery Planning program across 50+ stakeholders in Legal, Treasury, and Operations — cross-functional program management against immovable regulatory deadlines, delivering to the Federal Reserve and FDIC.
- Built automated reconciliation dashboards that cut manual review time ~40%.

Capital Controller, Basel Measurement & Analytics — JPMorgan Chase — Sep 2017 – Feb 2019

Brooklyn, NY (preceded by Program Manager, CIB Resolution & Recovery Planning, 2015–2017)

- Owned Basel III RWA and capital adequacy reporting; identified \$180M in capital optimization opportunities for CFO decision support.

Bank Examiner — OCC / FL Office of Financial Regulation — Apr 2011 – Mar 2012

Bureau of Bank Regulation | West Palm Beach, FL

- Conducted safety-and-soundness examinations across credit, liquidity, and operational risk; contributed to enforcement actions and remediation monitoring. FDIC Bank Examiner I.

EARLIER EXPERIENCE

Assistant Vice President, Global Legal Entity Management — Citi, Tampa, FL (2012–2015): Centralized 500+ legal-entity data sources into governed master data, enabling automated FR2900 and TIC regulatory filings at 99.8% accuracy.

EDUCATION

Doctor of Business Administration (DBA), Florida International University — in progress, expected 2028 | GPA 3.81. Qualifying research completed Jul 2026: *Mitigating Anchoring Bias in Long-Term Auditor Engagements* (IRB-25-0462). Dissertation in development: automation bias in AI-assisted judgment.

Master of Business Administration (MBA), Florida International University — 2011

B.Sc., Banking & Finance, London School of Economics (LSE) — 2005

Columbia Engineering FinTech Boot Camp, Columbia University — 2021

SKILLS & CERTIFICATIONS

Responsible AI: NIST AI RMF • SR 11-7 model risk • EU AI Act and ISO/IEC 42001 readiness • risk tiering • explainability • human-in-the-loop control design • pre-launch review • responsible-AI policy and training

Program management: Cross-functional programs (50+ stakeholders) • regulatory deadline delivery • roadmap and milestone ownership • escalation management • executive and Board reporting

Technical: Python (applied) • RAG and prompt engineering • SQL • Tableau • Excel/VBA • GitHub

Certifications: FDIC Bank Examiner I • Registered Scrum Master • GCP Social/Behavioral Human Research (AI Ethics)
