SUMMARY

Has sat in every chair a Regulatory Relations seat faces. As a **bank examiner** with the Florida Office of Financial Regulation, ran safety-and-soundness examinations alongside federal banking regulators and wrote the workpapers behind enforcement actions — the regulator's side of the request. At JPMorgan Chase, made the submissions: ran **Resolution & Recovery Planning** across 50+ stakeholders in Legal, Treasury, and Operations into Federal Reserve and FDIC filings against statutory deadlines, and led CCAR validation over a \$2.6T balance sheet. At Citi Internal Audit, tracked the undertakings: led **consent-order** issue closure across 15+ business units, authoring the evidence that quality assurance and external regulators accepted. Runs the process as well as the relationship — consolidated 500+ legal-entity data sources into a governed repository at 99.8% filing accuracy, automated reconciliations (~40% less manual review), and built a workpaper assistant (~35% faster review). Reports to executive management and the Board Audit Committee. DBA candidate at FIU (expected 2028, GPA 3.81).

THE ROLE'S RESPONSIBILITIES, AGAINST THE RECORD

The posting asks for	Where it has been done
Liaison between Internal Audit and the regulators; oversee the examination process	Ran examinations as a state bank examiner alongside federal regulators (Florida OFR); managed the regulated side of Federal Reserve and FDIC submissions at JPMorgan; worked consent-order interactions with external regulators at Citi.
Track incoming regulatory matters; coordinate information requests and responses across functional teams	Resolution & Recovery Planning program: 50+ stakeholders across Legal, Treasury, Operations, Controllers, and Model Risk delivering regulator-ready submissions to non-negotiable deadlines; CIB RRP Program Manager coordinating deliverables across legal entities.
Monitor teams' progress in completing undertakings made to regulators	Consent-order remediation at Citi: issue-closure packages and sustainable-closure evidence across 15+ business units, accepted by quality assurance and by external regulators; escalated where remediation was not credible.
Best practices for regulatory interactions; senior management reporting; escalation	Executive and Board Audit Committee reporting at Citi; supervisory-expectation and escalation design as first-line Risk Control Manager at JPMorgan; examiner-side view of what a credible response looks like.
Own and re-engineer the team's processes and controls; maintain a centralized warehouse of requests, responses and commitments	500+ legal-entity data sources consolidated into governed master data with ownership and lineage (99.8% filing accuracy); automated reconciliations, ~40% less manual review; RAG workpaper assistant, ~35% faster review — built, not commissioned.
