

YASIR A. MALIK

AI Product & Digital Transformation Leader | Finance, Risk & Compliance Workflows | Generative AI, Agents and RAG in Production

New York, NY • YasirAMalik@gmail.com • +1 (786) 704-8536 • linkedin.com/in/yasiramalik • github.com/MalikAI-786

PROFILE

Enterprise technology leader who redesigns how work gets done in Finance, Risk and Compliance functions with **AI, intelligent automation and workflow orchestration**, and who builds scalable, horizontal capabilities rather than point solutions. At Citi, owned the **product vision and roadmap** for AI in Internal Audit — discovery, business case, prioritisation, delivery, adoption and post-launch optimisation — and shipped a **generative AI (RAG) assistant** to production that cut review cycle time ~35%, with success metrics, user feedback loops and a governance framework mapped to NIST AI RMF. Earlier, redesigned Finance operating models at JPMorgan Chase and Citi: **automated reconciliations** that cut manual review ~40%, and a shared data platform across **500+ sources** that automated regulatory reporting at 99.8% accuracy. MBA. Registered Scrum Master.

SELECTED RESULTS

~35%	Review cycle time reduction from a generative AI assistant he took from discovery to production adoption, with metrics and feedback loops	Citi
~40%	Manual review eliminated in Finance capital controls through intelligent automation of reconciliations (Alteryx, SQL)	JPMorgan Chase
50+	Stakeholders across Finance, Legal, Treasury and Operations aligned on one program roadmap, none reporting to him	JPMorgan Chase

EXPERIENCE

Vice President, Audit Manager — Citi

Jul 2021 – Apr 2026

Internal Audit, Cross-Enterprise Program & Change Management | New York, NY

- **Owned the AI product vision, roadmap and investment case** for Internal Audit: use-case discovery with stakeholders across Risk, Compliance, Finance and Operations, prioritisation by value and criticality, business cases and executive roadmap presentations, and a control library that let one capability scale across **15+ business units** rather than a point solution per team.
- **Led the full product lifecycle** of a retrieval-augmented generative AI review assistant (Python, LangChain, vector search, LLM prompt design): gathered requirements from senior stakeholders, translated them into product capabilities and technical requirements, partnered with Engineering, Data, Architecture and Security on delivery, set adoption and quality metrics, and refined the product on user feedback — **~35%** faster review cycles in production.
- **Wrote the enterprise AI governance framework** (NIST AI RMF; data, security, compliance and regulatory considerations; human-in-the-loop and monitoring requirements) so AI agents and generative AI could be adopted at enterprise scale and defended to regulators.
- Evaluated emerging AI technologies — agents, RAG architectures, workflow orchestration — and brought practical applications into the function; led a cross-functional remediation program with Board Audit Committee reporting.

Risk Control Manager, Treasury & CIO (Finance) — JPMorgan Chase

Mar 2019 – Jun 2021

First-Line Capital Controls & Resolution and Recovery Planning | Jersey City, NJ

- **Redesigned Finance control workflows through automation:** automated reconciliations and CCAR forecast validation over a **\$2.6T** balance sheet, cutting manual review ~40% and standardising the process across teams.
- Ran **Resolution & Recovery Planning** as a cross-functional program — **50+ stakeholders** in five functions — navigating ambiguity and competing priorities to statutory deadlines; delivered executive and regulator communications.

Capital Controller, Basel Measurement & Analytics (Finance) — JPMorgan Chase

Sep 2017 – Feb 2019

Brooklyn, NY • preceded by Program Manager, CIB Resolution & Recovery Planning (2015–2017)

Owned Basel III RWA and capital adequacy reporting across a **\$50B** book; analysis surfaced **\$180M** in capital optimisation, presented as an investment case for CFO decision support.

Assistant Vice President, Global Legal Entity Management (Finance) — Citi

2012 – 2015

Office of the Chief Accounting Officer | Tampa, FL

Enterprise platform modernisation: consolidated **500+ legal-entity data sources** into governed master data with ownership, lineage and quality controls, replacing manual regulatory reporting with automated FR 2900 and TIC filings at **99.8%** accuracy.

Bank Examiner — Florida Office of Financial Regulation

Apr 2011 – Mar 2012

earlier: Senior Business Analyst, Retail Credit Risk — Royal Bank of Scotland, Dubai (2008–2009): credit-risk MIS for a \$500M+ portfolio in SAS and SQL

Examined banks alongside federal regulators; presented findings to boards.

SKILLS

Product & transformation: product vision and roadmap • investment proposals, business cases and ROI frameworks • discovery to post-launch optimisation • operating model redesign • process standardisation and simplification • agile delivery (Registered Scrum Master) • success metrics and adoption tracking • executive communications • stakeholder management across Finance, Procurement (third-party risk), Risk, Compliance and Operations
AI & platforms: generative AI and large language models • AI agents • RAG architectures • LangChain / LangGraph • machine learning (scikit-learn) • intelligent automation (Alteryx) • workflow orchestration • Python • SQL • enterprise data governance, security and regulatory compliance (NIST AI RMF, SR 26-2)

EDUCATION

MBA, Financial Mathematics, Florida International University — 2011 • **Doctor of Business Administration, Florida International University** — in progress; dissertation in development on human judgment in AI-assisted workflows • **B.Sc., Banking & Finance, London School of Economics** — 2005 • **Columbia Engineering FinTech Boot Camp** — 2021

Certifications: Registered Scrum Master • FDIC Bank Examiner I • GCP Social/Behavioral Human Research; *in progress* IAPP AIGP and CIA Part 1.
