PROFILE

Resolution-planning practitioner who ran Resolution & Recovery Planning at JPMorgan Chase, first as a Program Manager in the Commercial & Investment Bank and then as a Risk Control Manager in Treasury & CIO. Translated resolution strategy into analytics, data frameworks, governance and regulator-ready submissions to the Federal Reserve and FDIC, working across Finance, Treasury, Legal, Operations and Technology. Backed by liquidity and capital work (CCAR forecast validation over a \$2.6T balance sheet; Basel III RWA on a \$50B book), data governance (500+ legal-entity data sources under ownership, lineage and quality controls), and five years in Internal Audit making control evidence defensible.
