Profile: auditingai.github.io • Code and materials: github.com/MalikAI-786

PROFILE

Internal audit Vice President who has worked on AI and models from every side: **built** an AI governance framework, **shipped** a generative AI tool under it, **designed model controls** as a first-line owner, and **audited** governance and controls across 15+ business units. At Citi Internal Audit he wrote the framework for audit's own AI use (use-case intake, risk tiering, control library, transparency, human-in-the-loop requirements, monitoring) and delivered a retrieval-augmented assistant with prompt-injection guardrails. At JPMorgan Chase he designed controls over qualitative models, quantitative model attestation and model overlays, and challenged CCAR forecasts over a $2.6T balance sheet. A former bank examiner, with doctoral research at FIU on **how AI-assisted review changes professional judgment**.

SELECTED RESULTS

15+	Business units under risk-based, thematic, change and consent-order closure audits; closure evidence accepted by external regulators	*Citi Internal Audit*
~35%	Faster audit review from a generative AI assistant he took through the lifecycle, from requirements and guardrails to production and monitoring	*Citi Internal Audit*
$2.6T	Balance sheet under CCAR forecast validation and model challenge (SR 15-18)	*JPMorgan Chase*

EXPERIENCE

Vice President, Audit Manager — Citi

Jul 2021 – Apr 2026

Internal Audit — Cross-Enterprise Program & Change Management | New York, NY

- Led risk-based audits across **15+ business units**, including programme-management, thematic and change audits, and co-led **consent-order closure** audits, covering governance, controls, data integrity, technology and regulatory reporting; closure evidence **accepted by external regulators**; led a team of **15 auditors** across New York, India and Canada; reported to the Board Audit Committee.
- Assessed controls over **data integrity and regulatory reporting** by weighing business and technology risk together; raised and finalised findings, gave an overall opinion on the control environment, and presented results to senior management.
- Wrote the **AI governance framework** for audit's own AI use against NIST AI RMF and model-risk guidance, covering the lifecycle: use-case intake, risk tiering, a control library, transparency and explainability, human-in-the-loop requirements and post-deployment monitoring.
- Took a retrieval-augmented **generative AI review assistant** from requirements to production in Python and LangChain, with explainability, **prompt-injection (security) guardrails** and a person reviewing every output; ~35% less review cycle time.

Risk Control Manager, Treasury & CIO — JPMorgan Chase

Mar 2019 – Jun 2021

First-Line Controls and Model Controls | Jersey City, NJ

- Owned first-line controls over Treasury and CIO **capital and liquidity** activities; led CCAR forecast validation and model challenge over a **$2.6T** balance sheet; automated reconciliations cut manual review ~40%.
- Designed and implemented **model controls** for qualitative models and the attestation of quantitative models, including oversight of model overlays; worked through model testing to confirm the controls operated effectively.

Assistant Vice President, Global Legal Entity Management — Citi

2012 – 2015

Enterprise Data Governance | Tampa, FL

Consolidated **500+ legal-entity data sources** into governed master data with defined ownership, data modeling and ETL, lineage and quality controls; that data fed the Federal Reserve **FR 2900** and **TIC** filings at **99.8%** accuracy.

EARLIER CAREER

Capital Controller, Basel Measurement & Analytics — JPMorgan Chase, Brooklyn, NY (2017–2019) • Program Manager, CIB Resolution & Recovery Planning — JPMorgan Chase (2015–2017) • Bank Examiner, Bureau of Bank Regulation — Florida Office of Financial Regulation, West Palm Beach, FL (2011–2012) • Senior Business Analyst, Retail Credit Risk — Royal Bank of Scotland, Dubai (2008–2009)

SKILLS

Audit and controls: risk-based and integrated audits • three lines of defence • COSO • control design and testing • issue writing and remediation validation • consent orders and regulatory examinations • Board reporting

AI and model risk: NIST AI RMF • EU AI Act • ISO/IEC 42001 • model risk management • model lifecycle controls • model overlays • generative AI risks: prompt injection, hallucination, transparency • human-in-the-loop controls

Data for models: data lineage and quality controls • master data • data modeling and ETL • regulatory data and reporting

Audit analytics and AI: Python • SQL • LLMs and retrieval-augmented generation (LangChain) • audit analytics and population testing • Tableau • Power BI • Alteryx • Excel (advanced)

EDUCATION, RESEARCH AND CERTIFICATIONS

Doctor of Business Administration, Florida International University — in progress; qualifying examination passed July 2026. Research on how AI-assisted review changes professional judgment (dissertation in development on automation bias in AI-assisted audit judgment); conference paper under review, AIB Latin America & Caribbean 2027.

MBA, Florida International University (Financial Mathematics certification) — 2011 • **B.Sc. (Hons), Banking & Finance, London School of Economics** — 2005

Certifications: FDIC Bank Examiner I • Registered Scrum Master • In progress: CIA Part 1, IAPP AIGP
