Profile: auditingai.github.io • Code and materials: github.com/MalikAI-786

PROFILE

Risk and audit leader who works where data, controls and applied AI meet. At Citi he brought **500+ legal-entity data sources** under governed master data with lineage and quality controls (FR 2900 and TIC at 99.8% accuracy); in Internal Audit he wrote the **AI governance framework** for audit's own AI use and built a retrieval-augmented **review assistant** in Python and LangChain, taking it from requirements to production with guardrails, human review and evaluation of its outputs (~35% faster review). Adds JPMorgan first-line **model controls** and doctoral research at FIU on **how AI-assisted review changes professional judgment**.

SELECTED RESULTS

500+	Legal-entity data sources brought under governed master data, lineage and quality controls; FR 2900 and TIC filed at 99.8% accuracy	*Citi*
~35%	Faster review from a retrieval-augmented AI assistant he specified, built, evaluated and shipped under the governance framework he wrote	*Citi Internal Audit*
$2.6T	Balance sheet under CCAR forecast validation and model challenge (SR 15-18)	*JPMorgan Chase*

EXPERIENCE

Vice President, Audit Manager — Citi
Jul 2021 – Apr 2026

Internal Audit — Cross-Enterprise Program & Change Management | New York, NY

- Led risk-based audits across **15+ business units**, including programme-management, thematic and change audits, and co-led **consent-order closure** audits, covering governance, controls, data integrity, technology and regulatory reporting; closure evidence **accepted by external regulators**; led a team of **15 auditors** across New York, India and Canada; reported to the Board Audit Committee.
- Wrote the **AI governance framework** proposal for audit's own AI use against NIST AI RMF and model-risk guidance: use-case intake, risk tiering, control library, human-in-the-loop requirements and post-deployment monitoring.
- Took a retrieval-augmented **review assistant** from requirements to production in Python and LangChain: retrieval over audit standards and workpapers, explainability, prompt-injection guardrails, a person reviewing every output, and testing of outputs before reliance; ~35% less review cycle time.

Risk Control Manager, Treasury & CIO — JPMorgan Chase
Mar 2019 – Jun 2021

First-Line Controls and Model Controls | Jersey City, NJ

- Owned first-line controls over Treasury and CIO **capital and liquidity** activities; led CCAR forecast validation and model challenge over a **$2.6T** balance sheet; automated reconciliations cut manual review ~40%.
- Designed and implemented **model controls** for qualitative models and the attestation of quantitative models, including oversight of model overlays; worked through model testing to confirm the controls operated effectively.

Capital Controller, Basel Measurement & Analytics — JPMorgan Chase
Sep 2017 – Feb 2019

Brooklyn, NY

Owned Basel III RWA and capital-adequacy reporting across a **$50B** book of equities, fixed income and derivatives, feeding FR Y-15, FFIEC 101, FR Y-14Q and Pillar 3; surfaced **$180M** in capital optimisation for the CFO.

Assistant Vice President, Global Legal Entity Management — Citi
2012 – 2015

Enterprise Data Governance | Tampa, FL

Consolidated **500+ legal-entity data sources** into governed master data with defined ownership, data modeling and ETL, lineage and quality controls; that data fed the Federal Reserve **FR 2900** and **TIC** filings at **99.8%** accuracy.

EARLIER CAREER

Program Manager, CIB Resolution & Recovery Planning — JPMorgan Chase (2015–2017) • Bank Examiner, Bureau of Bank Regulation — Florida Office of Financial Regulation, West Palm Beach, FL (2011–2012) • Senior Business Analyst, Retail Credit Risk — Royal Bank of Scotland, Dubai (2008–2009)

SKILLS

Data strategy and governance: data ownership and stewardship • master data • data lineage and quality controls • data modeling and ETL • regulatory data (FR 2900, TIC, FR Y-14Q, FFIEC 101) • reporting to senior management and the Board Audit Committee
Applied AI: Python • SQL • LLMs and retrieval-augmented generation (LangChain) • prompt-injection guardrails • output testing and human review • scikit-learn • Tableau • Power BI • Alteryx • Excel (advanced)
AI governance and risk: NIST AI RMF • EU AI Act • ISO/IEC 42001 • model risk management • AI use-case risk tiering • human-in-the-loop controls • three lines of defence

EDUCATION, RESEARCH AND CERTIFICATIONS

Doctor of Business Administration, Florida International University — in progress; qualifying examination passed July 2026. Research on how AI-assisted review changes professional judgment: qualifying study on anchoring bias; dissertation in development on automation bias in AI-assisted audit judgment; conference paper under review, AIB Latin America & Caribbean 2027.
MBA, Florida International University (Financial Mathematics certification) — 2011 • **B.Sc. (Hons), Banking & Finance, London School of Economics** — 2005
Certifications: FDIC Bank Examiner I • Registered Scrum Master • In progress: CIA Part 1, IAPP AIGP
