

YASIR A. MALIK

Internal Audit • Risk & Controls • Capital & Financial Control • Data Governance • AI Governance | Former Bank Examiner | Doctoral Researcher in AI-Assisted Judgment

Newark, NJ • YasirAMalik@gmail.com • +1 (786) 704-8536 • linkedin.com/in/yasiramalik • github.com/MalikAI-786 • auditingai.github.io

SUMMARY

Audit and risk executive across Citi, JPMorgan Chase, and the Florida Office of Financial Regulation who has held every seat around a control: the examiner who tested it, the first-line manager who built and ran it, and the auditor who opined on it. At JPMorgan, owned the control framework for Treasury & CIO capital activities, led CCAR validation over a \$2.6T balance sheet, and ran Resolution & Recovery Planning into Federal Reserve and FDIC submissions. At Citi, led risk-based audits across 15+ business units with consent-order closure evidence accepted by external regulators. Builds the tooling as well as the framework: a production RAG workpaper assistant (~35% faster review), automated reconciliations (~40% less manual review), 500+ legal-entity data sources into governed master data at 99.8% filing accuracy. Authored an AI governance framework referencing NIST AI RMF and SR 11-7. DBA candidate at FIU researching how expert judgment degrades under AI assistance.

SELECTED RESULTS

Result	What it was	Where
\$2.6T	CCAR forecast validation and qualitative model challenge under SR 15-18, with Finance, Treasury, and Model Risk	JPMorgan Chase
\$180M	Capital optimization identified for CFO decision support from Basel III RWA reporting on a \$50B book	JPMorgan Chase
99.8%	Filing accuracy on automated FR 2900 and TIC regulatory reporting after consolidating 500+ legal-entity data sources into governed master data	Citi
~40% less	Manual review on capital and liquidity reconciliations, by automating them and removing a recurring source of reporting error	JPMorgan Chase
~35% faster	Audit review cycle time from a RAG workpaper assistant built in Python and LangChain — designed so the tool was itself auditable	Citi

CORE COMPETENCIES

Internal Audit & Controls (IIA Standards, COSO, Three Lines of Defense, SOX ITGC) | First-Line Risk & Control Frameworks | Regulatory Examination & Remediation (consent orders, Federal Reserve, FDIC, state supervision) | Capital & Liquidity (CCAR / SR 15-18, Basel III RWA, Resolution & Recovery Planning) | Financial & Regulatory Reporting Control (FR 2900, TIC, legal entity) | Data Governance & Data Quality | AI Governance & Model Risk (NIST AI RMF, SR 11-7, EU AI Act, ISO/IEC 42001) | Audit Analytics & Automation (Python, SQL, LangChain / RAG, Alteryx, Tableau) | Executive & Board Audit Committee Reporting

PROFESSIONAL EXPERIENCE

Vice President, Audit Manager — Citi — Jul 2021 – Apr 2026

Internal Audit, Cross-Enterprise Program & Change Management | New York, NY

- Led risk-based audits end to end across 15+ business units — control design and operating effectiveness across business, finance, and technology risk; opinions on the control environment; escalation where remediation was not credible.
- Drove consent-order remediation: issue-closure packages and sustainable-closure evidence accepted by quality assurance and by external regulators.
- Built independent assurance over enterprise AI adoption — governance, model risk, bias, hallucination, third-party AI — and designed and shipped a RAG-based Workpaper Quality Assistant (Python, LangChain, SHAP/LIME) that cut review cycle time ~35%.
- Delivered executive and Board Audit Committee reporting; coached 8+ auditors. Citi *Delivers with Pride* recognition.

Risk Control Manager, Treasury & CIO — JPMorgan Chase — Mar 2019 – Jun 2021

First-Line Capital Controls & Resolution and Recovery Planning | Jersey City, NJ

- Owned the first-line control framework for Treasury & CIO capital activities; automated capital and liquidity reconciliations, cutting manual review ~40%.
- Led CCAR forecast validation and qualitative model challenge over a \$2.6T balance sheet under SR 15-18.
- Ran Resolution & Recovery Planning across 50+ stakeholders in Legal, Treasury, and Operations, delivering to the Federal Reserve and FDIC against statutory deadlines.

Capital Controller, Basel Measurement & Analytics — JPMorgan Chase — Sep 2017 – Feb 2019

Brooklyn, NY • preceded by Program Manager, CIB Resolution & Recovery Planning (2015–2017)

- Owned Basel III RWA and capital adequacy reporting for a \$50B book of equities, fixed income, and OTC derivatives; identified \$180M in capital optimization for CFO decision support.

Assistant Vice President, Global Legal Entity Management — Citi — 2012 – 2015

Tampa, FL

- Consolidated 500+ legal-entity data sources into governed master data, enabling automated FR 2900 and TIC regulatory filings at 99.8% accuracy.

Bank Examiner, Bureau of Bank Regulation — Florida Office of Financial Regulation — Apr 2011 – Mar 2012

West Palm Beach, FL • earlier: Senior Business Analyst, Retail Credit Risk — Royal Bank of Scotland, Dubai (2008–2009), credit-risk MIS over a \$500M+ portfolio in SAS and SQL

- Conducted CAMELS safety-and-soundness examinations of state and national banks alongside federal banking regulators; authored workpapers supporting formal enforcement actions.

EDUCATION

Doctor of Business Administration (DBA), Florida International University — in progress. Qualifying examination passed Jul 2026 (IRB-25-0462): a 55-item instrument on anchoring in audit judgment, designed and fielded under institutional ethics approval. Dissertation in development: *Anchoring Bias in LLM-Assisted Audit Judgment*.

MBA, Financial Mathematics, Florida International University — 2011 • **B.Sc., Banking & Finance, London School of Economics** — 2005 • **Columbia Engineering FinTech Boot Camp** — 2021

ADVISORY, CERTIFICATIONS & TECHNICAL SKILLS

Founder, Audit the Algorithm (auditingai.github.io, 2024–): AI governance advisory for regulated financial services.

Certifications: FDIC Bank Examiner I • Registered Scrum Master • GCP Social/Behavioral Human Research. *In progress:* CIA Part 1, IAPP AIGP.

Technical: Python • SQL • SAS • SPSS • LangChain / RAG • scikit-learn • SHAP / LIME • Alteryx • Tableau • Power BI • Excel/VBA • GitHub Actions.
