SUMMARY

15+ years leading global and regional audit engagements at Citi Internal Audit and JPMorgan Chase. Six years at JPMC (2015–2021) covering CIB Resolution & Recovery Planning, Treasury & CIO CCAR/capital, and Basel III RWA across a **\$50B** portfolio of equities, fixed income, and OTC derivatives. Five years at Citi as VP Internal Audit Manager leading consent-order audit execution under **OCC and Federal Reserve** oversight. Built and shipped a **RAG-based Workpaper Quality Assistant** (Python · LangChain · Alteryx integration) that cut audit cycle time **~35%** — directly relevant to the JD's Alteryx + Python + large-language-model expectation. Boomeranging into JPMC to apply that toolkit to Asset & Wealth Management audit coverage.
